LOCATION-BASED RETRIEVAL OF NEWS AND CONTEXT USING INTERACTIVE WORLD MAP

Purple team

MINIMUM VIABLE PRODUCT

- Basic front-end design with simple layout and navigation.

- The user will be able to choose a country and a category from a limited selection.

- Based on user selection, a list of popular/trending articles will be retrieved and displayed.

- Upon selecting an article, an article summary along with related tweets and YouTube videos may be shown based on related keywords.
